

PrecisionNH3

Control System

Features and Benefits

* Capacity

Continental Super Cooler has 30+ GPM at 60 psi tank pressure

Stainless steel internal tubes prevent corrosion caused by nitrogen stabilizers

* Accuracy

Raven 1-60 gpm flow meter with proven accuracy and dependability

120 degree control valve with "V" ball opening allows more accurate control and less "oscillation" at lower rates or with section control

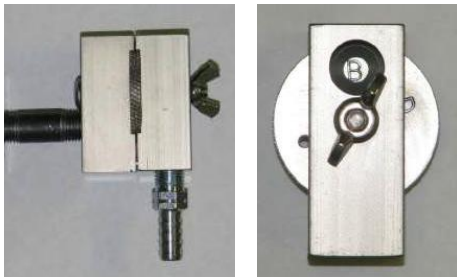

* Safety bleed down empties into the vapor lines

Operator is removed from the point of exhaust

* Orifice valve in dump line for vapor

Stainless steel disc with 4 orifices to choose from allows better matching of vapor to rates eliminating excessive vapor out the vapor tubes

Can easily change orifice in seconds by loosening thumb screw and turning disc
